MADP

Multi Asset Dynamic Portfolio

The Low Risk, All-Weather Strategy to Wealth
Creation

No Single Asset Class Performs Well Across Market Cycles: Multi-Asset investing is essential

1 Markets Moves in cycles

2 PL Capital recognised this early

3 Each asset leads in different phases

**We Try
To Get It
Right
By Integrating**

1

Right Asset : Drives performance by 91 %*

Right asset at right time > holding an asset at all times

2

Right Time : Enhances alpha generation & risk management

Timely, systematic and objective review and rebalance > buy & hold driven by biases

3

Right Factors : Enhances performance by 80%^

Blending multiple factors > choosing single factor

What is MADP?

- A rules-driven, ETF-based only all-weather PMS that dynamically allocates across multi assets like Equity, Gold, and Fixed Income (Debt) to adapt to market conditions.
- Designed to deliver consistent returns with lower volatility by balancing exposure across asset classes throughout market cycles and Quant based rebalancing.
- Aims to capture upside during risk-on phases while protecting capital and diversifying risk during risk-off environments to generate sustained alpha.

Core Principles of MADP

Deliver consistent, risk-adjusted returns through a fully systematic, ETF based regime-aware multi-asset allocation framework that dynamically adapts to market conditions.

Core Principles of MADP

MARVEL Investment Framework

MARVEL is MADP's disciplined, data-driven investment framework designed to navigate changing market regimes.

Macro Environment

Economic cycle, growth signals and monetary policy

Risk Regime & Sentiment

Market fear, volatility and investor positioning

Equity Style Factors

Value, growth, quality, momentum and low-vol tilts

Proprietary Multifactor Allocation Process

MADP dynamically allocates capital across asset classes using proprietary Macro, Liquidity, Value, Trend, and Risk factors to construct a diversified multi-asset portfolio.

SMART Investment Philosophy

In the world of smart phones, smart TVs, smart cars and smart homes, we bring to you SMART investment strategies.

Multilayer Risk Management

Why Choose MADP

1

Tactical Asset Allocation Strategy

to capture upside in favourable times and protect downside in challenging times

2

Diversified Portfolio- True Diversification

that Invests across Fixed Income, Precious Metals, Domestic & International Equities

3

Uses a Multi-Factor Quant Model

that captures macros, liquidity, trend, risk, valuations and sentiment to dynamically allocate across Asset classes

4

Sustainable Outperformance

A Multi Asset Strategy aimed to generate consistently superior returns across market cycles

5

Adaptive across Risk on-off phases

Manages risk by going defensive and generates returns by going aggressive at opportune time

6

Superior Returns Lower Volatility

It aims to generate healthy returns that beat inflation, debt, gold and equity indices returns over the long term while keeping the portfolio's volatility very low

7

Rule Based Discipline

No fund manager discretion. Consistent process every cycle

MADP Strategy Performance:

Period	MADP	Nifty Multi Asset
1 month	1.50%	1.67%
